

ARITHMETIC WORKSHEET

Addition & Subtraction

Name: _____

1. I have \$150 dollars. I bought a card for my mother for \$98. How much change should I receive?
2. Jonny's parents take him to a play, spending \$72 on tickets. If Jonny's parents' tickets cost \$36 in total, how much does Jonny's ticket cost?
3. Kenneth bought a pair of shoes for \$40, glasses for \$20 and nail polish for \$5. If he paid the cashier \$99.90, how much change did he receive?
4. Wilson was planning to take his dog to the vet. After returning home from work, it took Wilson 11 minutes to get ready. Then, it took 23 minutes to reach the hospital, but Wilson had to wait for 47 minutes before it was his dog's turn to receive a check-up. How long did it take Wilson's dog to get checked from the moment Wilson returned home from work.
5. If I can buy 2 folders for \$5.00, how many could I buy for \$20.00?
6. Mrs Jones cut 9.5 meters from a roll of ribbon 32.8 meters long. How much was left
